Outline

- 1 $x_F \in [0.10, 0.16)$
- 2 $x_F \in [0.16, 0.22)$
- 3 $x_F \in [0.22, 0.28)$
- 4 $x_F \in [0.28, 0.34)$
- 5 $x_F \in [0.34, 0.40)$
- 6 $x_F \in [0.40, 0.46)$
- 7 $x_F \in [0.46, 0.58)$
- 8 $x_F \in [0.58, 0.70)$
- 9 $x_F \in [0.70, 0.95)$

LH2 and LD2 Single Differential Cross-Sections

$x_F \in [0.10, 0.16]$

Cross-Section Ratio $\sigma_{pd}/2\sigma_{pp}$

$x_F \in [0.10, 0.16)$

Combined Overlay and Ratio

$x_F \in [0.10, 0.16]$

LH2 and LD2 Single Differential Cross-Sections

$x_F \in [0.16, 0.22]$

Cross-Section Ratio $\sigma_{pd}/2\sigma_{pp}$

$x_F \in [0.16, 0.22]$

Combined Overlay and Ratio

$x_F \in [0.16, 0.22]$

LH2 and LD2 Single Differential Cross-Sections

$x_F \in [0.22, 0.28]$

Cross-Section Ratio $\sigma_{pd}/2\sigma_{pp}$

$x_F \in [0.22, 0.28]$

Combined Overlay and Ratio

$x_F \in [0.22, 0.28]$

LH2 and LD2 Single Differential Cross-Sections

$x_F \in [0.28, 0.34]$

Cross-Section Ratio $\sigma_{pd}/2\sigma_{pp}$

$x_F \in [0.28, 0.34]$

Combined Overlay and Ratio

$x_F \in [0.28, 0.34]$

LH2 and LD2 Single Differential Cross-Sections

$x_F \in [0.34, 0.40]$

Cross-Section Ratio $\sigma_{pd}/2\sigma_{pp}$

$x_F \in [0.34, 0.40)$

Combined Overlay and Ratio

$x_F \in [0.34, 0.40]$

LH2 and LD2 Single Differential Cross-Sections

$x_F \in [0.40, 0.46]$

Cross-Section Ratio $\sigma_{pd}/2\sigma_{pp}$

$x_F \in [0.40, 0.46]$

Combined Overlay and Ratio

$x_F \in [0.40, 0.46]$

LH2 and LD2 Single Differential Cross-Sections

$x_F \in [0.46, 0.58)$

Cross-Section Ratio $\sigma_{pd}/2\sigma_{pp}$

$x_F \in [0.46, 0.58]$

Combined Overlay and Ratio

$x_F \in [0.46, 0.58]$

LH2 and LD2 Single Differential Cross-Sections

$x_F \in [0.58, 0.70]$

Cross-Section Ratio $\sigma_{pd}/2\sigma_{pp}$

$x_F \in [0.58, 0.70]$

Combined Overlay and Ratio

$x_F \in [0.58, 0.70]$

LH2 and LD2 Single Differential Cross-Sections

$x_F \in [0.70, 0.95]$

Cross-Section Ratio $\sigma_{pd}/2\sigma_{pp}$

$x_F \in [0.70, 0.95]$

Combined Overlay and Ratio

$x_F \in [0.70, 0.95]$
